

“AAIB launches and operates a new network to manage operations based on Microsoft technology”.-Al Alam Al Youm, 05.11.08, page 22

“We were seeking technology based solutions to accompany the bank's expansion in business activities. This necessitated a secure Information and Communication Infrastructure. We found that and more in Microsoft Products. The total solution was designed and deployed in coordination with Nile.Com as the best expertise in deploying Microsoft's latest technologies.”—Dr. Ashraf Sabry

“Nile.Com is fully accredited for the Design and Deployment of the project based on Microsoft's latest Technologies.”—Karim Ramadan

“Nile.Com competent technical staff completes the deployment process successfully within a challenging pre-planned time frame.”—Mohamed El Mougy

2008 Achievements

Nile.Com achievements and success in 2008 is greatly attributed the efforts of our Business Development Team and the Support of Our Technical Teams.

These efforts led to Customers' Greater Satisfaction; to whom we owe our gratitude for their confidence in Nile.Com.

These efforts have also lead our Business Partners to nominate Nile.Com for several Performance Awards.

Award Nominations

Nile.Com was nominated for and received three awards in 2008 from:

- Microsoft
- Lenovo
- Tipping Point
